Floor area*	171 m²
Balcony	20 m²
Front garden	388 m²
Parking	Two parking spaces
Cellar	-
PENB	C
Reference number	107224

This nearly 200-square-meter sunlit apartment occupies the entire 1st floor of a newly renovated villa in a quiet part of Záběhlice. The apartment features two balconies, a private garden with a terrace, and two parking spaces. It will be handed over in the developer's standard.

This separate residential unit with a private entrance features windows facing **all cardinal directions**. Its layout includes a living room connected to a dining area and kitchen, a master bedroom with **an en-suite bathroom** and balcony, a walk-in closet, two additional bedrooms (one with access to a second balcony), a bathroom, a utility room, a hallway, and an entryway. The unit comes with two outdoor parking spaces, pre-wired for a **wallbox**. The villa consists of only three residential units.

The apartment features **wooden windows** with triple-glazed insulation, complemented by exterior blinds on the south side, underfloor heating, **air-conditioning**, a fireplace, as well as upgraded bathroom fixtures and premium flooring finishes. **A smart home system** facilitates the control of exterior blinds, thermostats, heating, the entrance barrier, and video intercom communication, with the option to add additional features.

The **Záběhlice** district offers full civic amenities, including restaurants, shops, a medical center, a kindergarten, and an elementary school, along with numerous playgrounds. Sports enthusiasts will appreciate the large **Hamr sports complex**, which features 18 tennis courts, beach volleyball, squash, and table tennis. The nearby **Hamr Pond** is ideal for walks and bike trips. A bus stop just two minutes away on foot provides quick and convenient transport to the city center.

Floor area 191.58 m² (of which balconies 9.73 m² and 10.52 m²), garden 388.16 m².

Planned completion: Q4 2025.

The presentation includes visualizations.

\* Area of the unit according to the Civil Code. The area consists of the sum total area of the entire unit bounded by perimeter walls.
